

## *Curriculum Vitae*

### Personal data

**Name:** Paolo Frasconi

**Addresses:**

- Office: Dipartimento di Sistemi e Informatica, Università degli Studi di Firenze, Via di Santa Marta, 3, 50139 Firenze, Italy.  
Tel.: +39 (055) 479-6362, Fax: +39 (055) 479-6363
- Home: Via Giovanni da San Giovanni 45, 52027 San Giovanni Valdarno (AR).
- Electronic: p-f@dsi.unifi.it – <http://www.dsi.unifi.it/~paolo>.

**Born:** Montevarchi (Italy). April 9, 1963.

**Citizenship:** Italian.

**Languages:** Italian (native), English (professional).

### Education

- Ph.D. in Computer Engineering, 1994, Università degli Studi di Firenze. Thesis: Recurrent neural networks and adaptive processing of sequences.
- Laurea degree, Electronics Engineering, 1990 Università degli Studi di Firenze, Cum Laude.

### Academic Positions

- **Full Professor.** Qualification obtained on April 2006.
- **Associate Professor.** Nov. 1999 – present. Università degli Studi di Firenze.
- **Associate Professor.** Nov. 1998 – Ott. 1999. Università degli Studi di Cagliari
- **Lecturer.** Jun 1998–Oct. 1998. School of Information Technology and Computer Science, University of Wollongong (Australia).
- **Assistant Professor.** Jul. 1995 – Oct. 1998. Università degli Studi di Firenze (Ingegneria).
- **Contract Professor.** 1993. Università degli Studi di Siena.
- **Visiting Scholar** 1992. Dept. of Brain and Cognitive Sciences, M.I.T.

### Grants

- Main funded research projects:
  - “Strumenti di Supporto all’Agenzia per la Mobilità Metropolitana” (tools in supports of the metropolitan mobility agency); (2008-2009) founded by the Florence Foundation for Research and Innovation.
  - BIOPTRAIN, Bioinformatics Optimization Training, Marie Curie EST, 2005–2009; funded by the European Commission.
  - APriL II, Applications of Inductive Logic Programming, FET, 2003–2007; funded by the European Commission.

- BIOPATTERN, Network of Excellence, 2003–2008; funded by the European Commission.
- Machine learning tools for text analysis and retrieval, (2003–2004); funded by Italian Ministry of University and Research.
- Machine learning tools for structural and functional genomics, as National Coordinator, (2002–2003); funded by Italian Ministry of University and Research.
- Machine learning techniques for quantitative analysis of chemical compounds, (2001–2002); funded by Italian Ministry of University and Research.

## Professional activities

- Journal Special Issues: Journal of Machine Learning Research (2008) [120] (with K. Kersting, H. Toivonen, K. Tsuda), ACM Transactions on Internet Technology (2004) [122; 121] (with M. Maggini, C.L. Giles, G. Flakes), Cognitive Systems Research (2002) [123] (with M. Gori, A. Sperduti), IEEE Transactions on Knowledge and Data Engineering (2001) [124] (with M. Gori, A. Sperduti), AIIA Magazine [125].
- Editorial Boards:
  - Associate Editor, *Artificial Intelligence Journal*, since 2009.
  - Editorial board member, *Machine Learning Journal*, appointed for 2009–2011.
  - Editorial board member *Source Code for Biology and Medicine*, 2008–present.
  - Associate Editor, *IEEE Transactions on Knowledge and Data Engineering* 2000–2005.
  - Associate Editor, *IEEE Transactions on Neural Networks* 2000–2004.
  - Associate Editor, *ACM Transactions on Internet Technology* 2003–2004.
- Conference Program Committee/Referee: several, including AAAI (2008, and Co-Chair for the Special Track on AI and Bioinformatics, 2010), Conference on Neural Information Processing Systems (as Area Chair, 2008 and 2009; as referee 1996–2001, 2004), Int. Joint Conference on Artificial Intelligence (as senior PC member, 2009), International Conference on Data Mining (as Vice-Chair, 2003), International Conference on Machine Learning (2004–2006, 2008), IEEE Int. Conference on Intelligent Systems in Molecular Biology (2003), European Conference on Machine Learning (2006–2008), IEEE Computer Society Conference on Bioinformatics (2003), European Conference on Evolutionary Computation Machine Learning and Data Mining in Bioinformatics (2008).
- Organization of scientific events:
  - Program Co-Chair, 20th International Conference on Inductive Logic Programming 2010.
  - 5th International Workshop on “Mining and Learning with Graphs”, Università degli Studi di Firenze, August 1–3, 2007 (Program Co-Chair, with K. Kersting, K. Tsuda) [3].
  - Special Session “Machine Learning in Bioinformatics”, 6th Int. Conf. on Knowledge-Based Intelligent Information Engineering Systems & Allied Technologies (September 2002).
  - Co-director, NATO Advanced Studies Institute “Artificial Intelligence and Heuristic Methods for Bioinformatics”, San Miniato, 1–11 Ottobre 2001 (A. Apostolico, P. Baldi, S. Brunak, R. Casadio, A. Covacci, D. Geiger, D. Haussler, N. Kolchanov, S. Muggleton, B. Rost, R. Serra, R. Shamir) [4].
  - Workshop “Foundations of connectionist-symbolic integration: representation, paradigms, and algorithms”, European Conference on Artificial Intelligence (ECAI), 2000.
  - Workshop “Learning dynamical data structures: From sequences to graphs”, at Neural Information Processing Systems, Denver (CO), December 1997
- Scientific Publications: over 100.

- Invited book chapters: over 10.
- Authored books: 1 [1]. Edited books: 2 [2; 4].
- Invited talks and keynote speaker. Several, including the Workshop on Random Growing, and Infinite Networks (Blaubeuren, Jan 2008), 17th Annual International Conference on Inductive Logic Programming (ILP'07), Freiburg, Leuven & Friends, Workshop on Advances in Machine Learning (Montreal), 2003, Imperial College London, University of California, Irvine, University of Ulm, University College London, University College Dublin.
- Reviewer for about 25 journals, including *Machine Learning*, *Journal of Machine Learning Research*, *Bioinformatics*, *BMC Bioinformatics*, *Journal of Biological Inorganic Chemistry*, *Molecular Biology and Evolution*, *Journal of Human Evolution*.
- Reviewer for several scientific funding bodies including European Commission (STREP evaluator), European Science Foundation, European Research Council, Australian Research Council, Austrian Science Fund, Research Foundation - Flanders (Belgium), Science Foundation Ireland, Research Grants Council Hong Kong, Italian Government's Department of Research and Education (MIUR).
- Teachers in tutorials and summer schools: several, including European Science Foundation Workshops, SOCRATES Intensive Programmes, NATO ASI, International Joint Conference on Artificial Intelligence (IJCAI), International School on Neural Networks.
- Present Ph.D. Students: Matteo Bertini, Marco Lippi, Marc Vincent.
- Past Ph.D. Students: Alessio Ceroni (Research Assistant, Imperial College London), Fabrizio Costa (Research assistant, K.U. Leuven), Sauro Menchetti, Andrea Passerini (Associate Professor, University of Trento), Alessandro Vullo (Research assistant, University College Dublin).
- Awarded "E. Caianiello prize" (1996, for the Ph.D. Thesis)

## Main results

Paolo Frasconi is active since 1990 in the areas of machine learning (in particular, neural networks, Markov models, kernel machines, and logic-based approaches for relational learning) and bioinformatics (in particular, protein structure and function, small molecules). Besides bioinformatics, he has contributed applications to natural language processing, text, and pattern recognition. He has published more than 100 refereed papers in the areas of machine learning and bioinformatics, collecting about 3500 citations and an h-number of 29 (Google Scholar, 2009). He is ranked 4607 in the "Citeseer Top 10,000 authors list in Computer Science", out of a total of 790329 authors (August 2006). Main results are as follows:

- Prediction of protein structural and functional properties: cysteine bonding state and disulfide connectivity [64; 23; 20; 13; 9], discrimination between disulfide bonded and cysteines involved in prosthetic groups and metal ions [19]; subcellular localization [55; 108]; prediction of zincoproteins [54; 11] and transition metal binding sites [12; 8]; metal bonding geometry [50].
- Prediction of biological properties of small molecules [10; 55; 53; 14].
- Prediction of protein structure: secondary structure [30; 16], beta partners [6], coarse contact maps [65; 22; 63; 15];
- Neural networks and graphical models for learning structured data [87; 84; 32; 85; 81]. Algorithms for learning structured outputs [50; 7; 20]. Applications to RNA structure [7] pattern recognition problems [47; 75; 25] and fingerprint classification [72; 26].
- Structured output learning with kernel methods [50] and Markov logic networks [6].

- Kernels for data structures [55] and logical representations [56; 131; 46; 14; 53; 2]. Applications to protein fold classification [14; 2].
- Multiclass classification using support vector machines [21].
- Algorithms and models for the World Wide Web [76; 59] including a book [1] and two special issues of *ACM Trans. on Internet Technology* [122; 121].
- Natural language processing. Disambiguation in incremental parsing [79; 74; 27; 24; 18; 17]. Text categorization [28; 71]. Information extraction [46; 130]
- Sequence learning. The problem of long-term dependencies [94; 42; 90; 38]. Input-Output Hidden Markov Models (IOHMM) [92; 145; 48; 34]. Grammatical inference [91; 36; 35]. Local feedback recurrent neural networks [44] and their applications to speech recognition [98; 104].
- Integration of symbolic and subsymbolic knowledge [101; 103; 97; 41; 37].
- Optimal learning in feedforward networks [95; 39] and RBF networks [40; 33; 29].

## Teaching Experience

- *Machine Learning*, 2003-Present. Graduate and PhD programs in Computer Engineering and Automation Engineering, University of Florence.
- *Artificial Intelligence*. 2004. Degree in Computer Engineering, University of Florence.
- *Algorithms and Data Structures - C++ Programming*. 2002-present. Undergraduate program in Computer Engineering, University of Florence.
- *Information Technology*. 2000-2002. Degree in Civil Engineering, University of Florence.
- *Algorithms and C programming*. Degree in Telecommunications Engineering. 2000-2002. University of Florence.
- *Fundamentals of Computer Science*. Degree in Computer Engineering. 1999. University of Cagliari.
- *Artificial Intelligence*. Degree in Computer Engineering. 1999. University of Cagliari.
- *Artificial Intelligence*, Fall 1998, School of Information Technology and Computer Science, Univ. Wollongong, (Australia)

## Industrial Experience

- Consultant. 1999: Talent s.r.l, Florence (Italy); neural networks for data mining. 1995: Panerai SpA, Florence (Italy); neural networks for pattern recognition. 1993: OTE SpA Florence (Italy), speech recognition for mobile phones. 1990: IRST Trento (Italy), speech Recognition.
- Scientific Advisor. 1998: NetID Inc., Los Angeles, CA; hidden Markov models.
- Visiting researcher. 1994: Centro Studi e Laboratori Telecomunicazioni (CSELT), Turin (Italy); neural networks and IOHMMs for speech recognition.

---

Firenze, September 16, 2009

Paolo Frasconi

## List of Publications

### Books

- [1] P. Baldi, P. Frasconi, and P. Smyth. *Modeling the Internet and the Web: Probabilistic Methods and Algorithms*. John Wiley & Sons, 2003. ISBN 978-0-470-84906-4.

### Edited Books/Proceedings

- [2] L. De Raedt, P. Frasconi, K. Kersting, and S. Muggleton, editors. *Probabilistic Inductive Logic Programming — Theory and Applications*. LNAI 4911. Springer, 2008. ISBN 978-3-540-78651-1.
- [3] P. Frasconi, K. Kersting, and K. Tsuda, editors. *Proceedings of the 5th Int. Workshop on Mining and Learning with Graphs (MLG'07)*. 2007.
